Vizcaya is located in Coconut Grove and is a National Historic Landmark built by James Deering in 1916 and is considered to be a premier example of Renaissance Architecture in the United States. Mr. Deering and his designer scoured Europe looking for the best components to include in the home which features 34 decorated rooms filled with 15th – 19th century antiques. Surrounding the home on Biscayne Bay are 10 acres of formal gardens.

We will meet at the United Church, 320 N. Barfield and leave Marco at 7:30 a.m. We will return to Marco late afternoon.
